NORWICH THROUGH CALIFORNIA EYES

Rose of New England Has Much to Tell.

Under the caption, Norwich, Conn., Rose of New England, has much to tell. A San Francisco paper has the following to say of the city.

Norwich, Conn.—Located down in the southeastern portion of the state, at the junction of the Shetucket and the Yantic rivers, which form the Thames at this city, Norwich, with its quaint old landmarks and notable for its beautiful homes built upon several elevated terraces, has been aptly called "The Rose of New England."

Its public square, known as Franklin square, nestles in a hollow, with streets radiating in many directions. Some follow the natural valleys between the rocky hills, others boldly climb their steep heights, while a few run along the banks of the three beautiful little rivers.

This city has much to lure the stranger within its boundaries, or to call him again and again to enjoy its quiet loveliness. Those who have spent their childhood here have a love for it which grows in the many tributes given in many directions.

Many of the directors commended very favorably upon the action of the league in devoting eight acres for the use of the school boys and making an appropriation of \$300 to aid them in their practice crop raising intentions.

Director C. A. Beebe of Montville expressed his great interest in the club work and of his desire to have some of it taken up in Montville. He also brought up the matter of exhibits of the club's products at the county fair.

TO SAVE EYES

Is the Object of This Free Prescription—Try it if Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a heavy fee. As a last resort they go to an optician or to the five and ten-cent store, and get glasses that they do not need, or which, after being used two or three months, do their eyes more injury than good. Here is a simple prescription that every one should use:

5 grains Optina (1 tablet 2 ounces water)

Use three or four times a day to bathe the eyes. This prescription and the simple Optina system keeps the eyes clean, sharpens the vision and quickly overcomes the inflammation and irritation; weak, watery, over-tired eyes, and all the other eye troubles are greatly benefited and oftentimes cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use. It is good for the eyes and con-tains no ingredients which would in-fact or in the end, do any harm to the most sensitive eyes of an in-fant or the aged. Lee & Osmond or any druggist will send this prescription promptly. Try it. You will know for once what real eye comfort is.

Secrets of London

Complexion Doctors

Famous London specialists who cater to titled ladies and others of social prominence employ a remarkable method of complexion rejuvenation. They undergo this treatment visits the beauty department in a private room. This is repeated daily for a week or so. When a complexion of snowy purity and exquisite delicacy is in evidence, the secret of this method is—ordinary mer-cenary wax without assistance of a special-ist. An ounce of this cream, used as a drug store (obtainable here as well as in England). It is used like cold cream, before retiring, and washed off morning. Its success is due to a peculiar absorbent property which draws out and moves without particles of outside, re-vealing the younger, healthier skin be-neath.

A wonderful wrinkle chaser, also in-vogue among Englishwomen, is pre-pared by dissolving 1 oz. powdered sal-tre in 1 pt. of water. Wash with it, and wash lotion, this completely and quick-ly effaces even the deepest line.
